

Gas Cylinder - Small

STORE SKU
GCL001

Gas cylinder valve lockout for cylinders without an integral locking feature.

TECHNICAL DATA

- **Material:** durable ABS plastic
- **Dimensions (L x W):** 83 mm x 37 mm
- **Lockout points:** 2
- **Padlock hole diameter:** 7 mm
- **Colour:** red

APPLICATION

Two semi-circular covers close over the supply valve on the top of the cylinder and prevent it being opened. Body measures 83 mm by 37 mm, sized for the smaller cylinder valve. Two lockout points allow a second padlock where more than one person works on the isolation, taking a shackle up to 7 mm.
