

Valve & Electrical Lockout Kit, polypropylene case

STORE SKU

LK004

Combined valve and electrical lockout kit supplied in a polypropylene case. Holds padlocks, hasps, tags and lockout devices for both valve and electrical isolation points.

TECHNICAL DATA

- **Material:** durable polypropylene
- **Colour:** black & blue

KIT CONTENTS

- 4 × 38 mm red steel padlock
- 2 × 25 mm safety hasp - steel hasp / nylon body
- 2 × 38 mm safety hasp - steel hasp / nylon body
- 2 × insulated nylon hasp
- 12 × style 3 - LOTO signage tag
- 2 × electrical MCB clamp-on lockout (16.5 mm) 120-277 V
- 1 × electrical MCB clamp-on lockout (41 mm) 480-600 V
- 2 × universal electrical miniature circuit breaker
- 1 × adjustable gate valve cover
- 1 × adjustable valve handle lock (small)
- 1 × adjustable steel cable - lockout tagout - style 1

APPLICATION

Assembled for sites where both valve and electrical sources are isolated. The electrical devices cover miniature circuit breakers with toggle handles from 16.5 mm to 41 mm, and the valve devices cover gate valves and small valve handles. Hasps in two jaw sizes provide isolation points for more than one padlock, and an insulated nylon hasp is included where a non-conductive hasp is specified.
